Subject: KCBX Health Consultation Report Meeting

Group –

ATSDR has recently finalized a Health Consultation report detailing a review and analysis of particulate matter and metals exposure in the air around KCBX, Chicago, Illinois. Senator Durbin and Representative Kelly formally requested assistance evaluating the potential health impact of windblown dust on the residents living near the facilities. Michelle Colledge, ATSDR and the lead author of the report, will be providing a copy to this group in a separate email.

Nicole Cantello, EPA Office of Regional Counsel, is out of the office until September 2016, so I am sending this email on her behalf. In anticipation of your review of the report, we wanted to extend an invitation to meet with ATSDR and EPA to discuss the report. Knowing that it takes time for a group our size to find availability, we are hoping to get something on the calendar as soon as possible.

EPA and ATSDR would be available for an in-person meeting at our Region 5 office the following dates and times:

- Monday, September 12 (all morning); and
- Wednesday, September 14 (from 12pm-2pm).

We understand you will need time to review the report, but if a meeting is something you are interested in, please let us know which dates/times would work for your group.

Thank you.

Molly Smith
